

## Oceans and Continents

<b>Ocean</b>	A large body of water which covers a large area of the earth
<b>Continents</b>	A large area of land on earth that is joined together. There are 7 continents Africa, Antarctica, Asia, Europe, North America, Australia and South Africa.

### Continents and Oceans

## World Climate Map

<b>Equator</b>	The imaginary line separating the northern and southern hemispheres.
<b>North Pole</b>	Northern hemisphere where the earth's axis of rotation meets the surface
<b>South Pole</b>	Southern hemisphere where the earth's axis of rotation meets the surface

### Kenya- HOT

- Most children in Kenya go to school, but not all of them.
- Some children, especially in rural areas, are too busy helping their families by working on the farm, cooking or fetching water.
- It is located in east Africa on the Equator
- The capital city is Nairobi..
- The Tana river is the longest river in Kenya.
- Mount Kenya is the highest mountain (5200m).
- Swahili and English are the official languages.
- The wildlife found in Kenya include the Lion, giraffe, elephant, wildebeest, crocodile and many more.

### Arctic- COLD

- The Arctic Circle is located at the very top of the Earth.
- It is very cold in the Arctic all year round and more of the ocean freezes in the winter.
- The only plants that can grow in the Arctic region are grass and mosses. Trees are unable to grow because the ground stays frozen all year round.
- In some places in the Arctic it is too cold for anything to grow at all.
- The people who live there are called Inuit people.
- Animals that live in the Arctic are the Polar bear, whale, Narwhal, Arctic hare.
